

energetic Networker

MVV Umwelt GmbH, a wholly-owned subsidiary of MVV Energie AG, has more than 50 years of experience in operating decentralised waste disposal and energy generation plants. Our Group is one of the market leaders in the generation of energy from waste. In the UK we currently operate Energy from Waste Plants in Plymouth and Dundee and a Biomass Facility at Ridham Dock (Kent).

EC&I Technician (Dundee)

Full Time (40 hours per week)

The Package:

Competitive Salary, bonus and benefits package

The Role:

- Support the Maintenance Manager in the EC&I maintenance of the EfW CHP Plant. Ensuring the safe, compliant and efficient maintenance of electrical, control and instrumentation equipment of the facility involving calibration, fault finding and routine maintenance in order to deliver best plant service availability and performance within approved budgets.

The Person:

- Qualified to at least SCQF Level 7 in a relevant Engineering discipline
- Knowledge of Safe Systems of Work with at least IOSH 4 day qualification
- Detailed knowledge and experience of all aspects of maintenance techniques associated with control systems, ideally Siemens PCS7, Valmet DNA, Step 7 WinCC, pneumatic and hydraulic transducers and instrumentation
- Experience with switchgear, MCCB and frequency Converters

This list summarises the main tasks and responsibilities for this role but is not exhaustive. Further tasks and responsibilities may be required according to business needs.
