

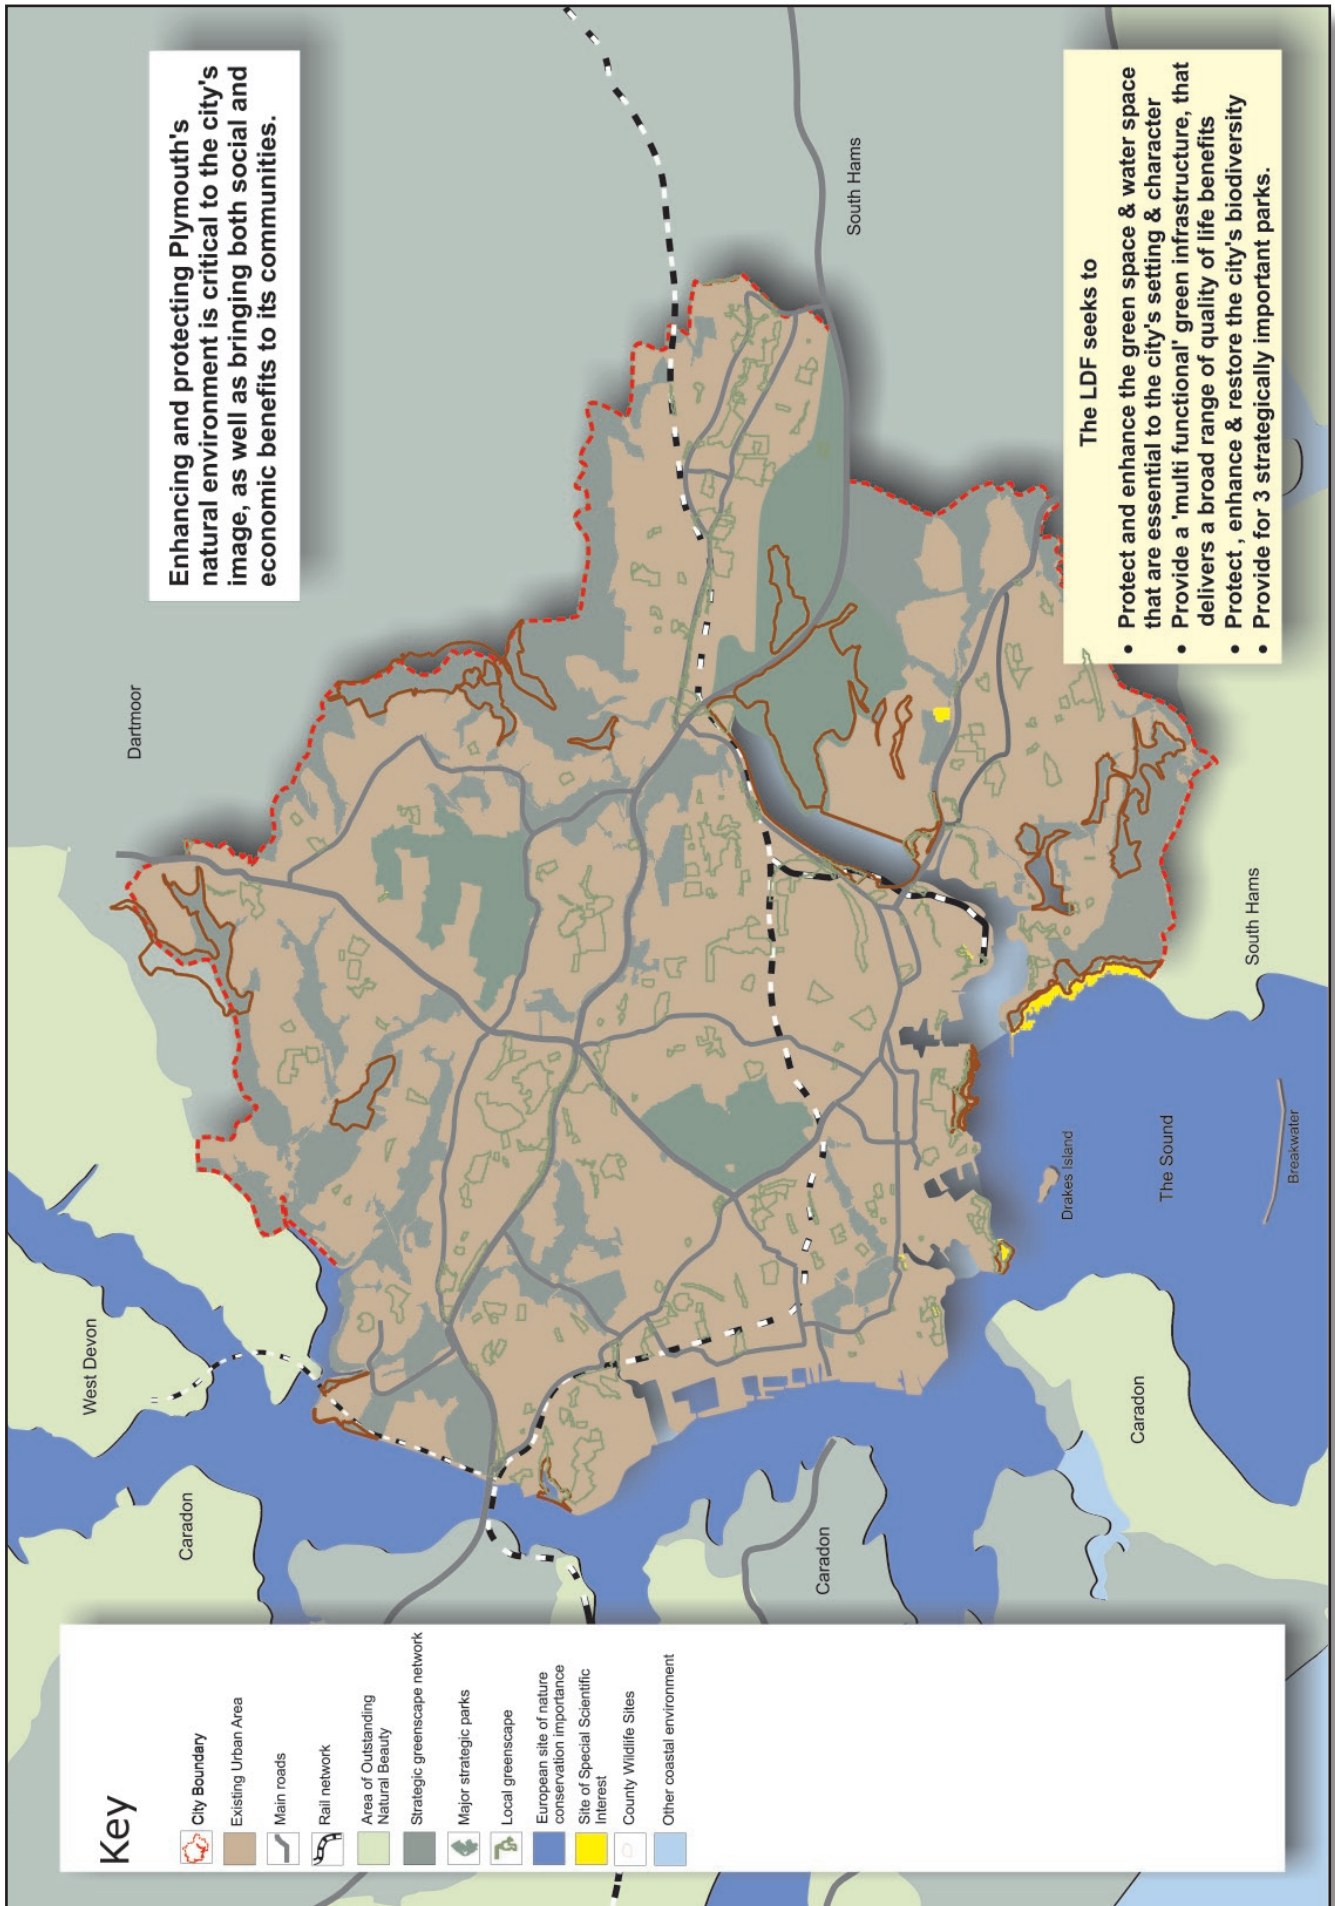

# Diagram 7 - Natural Environment

Enhancing and protecting Plymouth's natural environment is critical to the city's image, as well as bringing both social and economic benefits to its communities.

- The LDF seeks to
- Protect and enhance the green space & water space that are essential to the city's setting & character
  - Provide a 'multi functional' green infrastructure, that delivers a broad range of quality of life benefits
  - Protect, enhance & restore the city's biodiversity
  - Provide for 3 strategically important parks.
