

energetic Networker

MVV Umwelt GmbH, a wholly-owned subsidiary of MVV Energie AG, has more than 50 years of experience in operating decentralised waste disposal and energy generation plants. Our Group is one of the market leaders in the generation of energy from waste. In the UK we currently operate Energy from Waste Plants in Plymouth and Dundee and a Biomass Facility at Ridham Dock (Kent).

Shift Team Leader (Dundee)

Full Time (40 hours per week)

The Package:

Competitive Salary, bonus and benefits package

The Role:

- Management of the safe, compliant and efficient operation of the EfW (CHP) Facility at all times when on duty in order to deliver best facility performance regarding waste throughput, energy efficiency, resource saving, low wearing, cost efficiency and the targets of the company. Management of the shift team, day operations staff and the Facility in the absence of operations and maintenance management.

The Person:

- An experienced Engineer/Technician who has completed a recognised Engineering Degree/Apprenticeship/ Training, NVQ or equivalent qualification in a relevant engineering discipline or comparable work experience.
- Proven experience in an Energy from Waste facility or similar process, operating high pressure steam systems. Broad experience gained through shift working in a continuous process environment, preferably in Energy from Waste
- (Senior) Authorised Person in Safe Systems of Work
- Ability to lead an operations shift team to ensure adherence with procedures and effective utilisation of staff. Self-motivated, able to prioritise tasks and work without supervision

This list summarises the main tasks and responsibilities for this role but is not exhaustive. Further tasks and responsibilities may be required according to business needs.
