

Your job with a clear goal: #climatepositive

MVV Environment Limited is a wholly-owned subsidiary of MVV Umwelt GmbH and MVV Energie AG, which have more than 50 years of experience in operating high efficiency waste disposal and energy generation plants. Our Group is one of the market leaders in the generation of energy from waste. In the UK we currently operate Energy from Waste facilities in Plymouth and Dundee and a Biomass facility at Ridham Dock (Kent).

Please send your CV and covering letter to recruitment@mvvuk.co.uk

The closing date for applications is Tuesday, 30th April 2024

Shift Team Leader (Ridham Dock, Kent)

MVV Environment Ltd.
www.mvvuk.co.uk

Full Time (40 hours per week)

The Package:

Competitive salary, bonus, and benefits package

The Role:

To assist senior management in ensuring the safe, compliant, and efficient operation of the Biomass Facility while on duty, aiming to achieve optimal facility performance in terms of biomass throughput, energy efficiency, resource conservation, and company targets.

The Person

- An experienced engineer / technician having completed a recognised engineering apprenticeship / training.
- NVQ or equivalent qualification in a relevant engineering discipline.
- Knowledge of regulatory requirements, environmental and H&S regulations.
- Senior Authorised Person in Safe Systems of Work.
- Proven experience in an Energy from Waste facility or similar process, operating high pressure steam systems.
- Broad experience gained through shift working in a continuous process environment, preferably in Energy from Waste.
- An effective and flexible team member with the ability to lead the operations shift team to ensure adherence to procedures and efficient utilisation of staff.

This list summarises the main tasks and responsibilities for this role but is not exhaustive. Further tasks and responsibilities may be required according to business needs.
