12th July 2013

MVV to hold second 'Clean the Creek' event

MVV Environment Devonport Ltd is organising a work party on 17th July to clear up the area of Weston Mill Creek and Barne Brake. Local organisations have volunteered to help in clearing away litter and fly-tipped items, which have been dumped there, in order to improve this small but interesting tidal area.

Andy Smith, MVV's Director for Local Government Affairs, said:

"This is an initiative to clean up the creeks which unfortunately have been used as a dumping ground in the past. We are hoping to have about 30 or so people taking part and we already have volunteers from the Probation Service, apprentices from the MoD, students from the University of Plymouth's environmental sciences department, plus members of our own staff of course."

There are, however, a few places available for any interested local residents who wish to take part in this activity to improve their local environment. Work will start at 10am.

MVV will be providing refreshments. Places are limited so those interested in taking part should first register their interest by 5pm on Tuesday 16th July, with MVV at info@mvvuk.co.uk, or by calling Andrew Smith on 07920 547026 for further information and details of where to meet.

- Ends-

Notes to editors:

There will be a photo opportunity at 11am on the day. If you would like to cover the event, or for further information, please contact Jane Ford, Community Liaison Manager for MVV, on 07876 135632.

MVV Environment Devonport Limited is an English registered company with its registered office in Plymouth. It is the subsidiary company of MVV Umwelt. Both companies are members of German utility company MVV Energie, whose headquarters are in Mannheim. MVV Umwelt provides flexible solutions for waste disposal, producing environmentally sustainable energy. In Germany, MVV Umwelt operates six Energy from Waste and biomass plants, managing 1.6 million tonnes of waste a year. With over 45 years' experience, MVV Umwelt is in the top three companies in Germany in its field.
